

The receiving vectors of scintillation muon telescopes of the Yakutsk spectrograph for first spherical harmonics of cosmic ray angular distribution at the levels 0, 7, 20 and 40 meters of water equivalent (m.w.e.).

The receiving vectors of scintillation muon telescopes of the Yakutsk spectrograph for second spherical harmonics of cosmic ray angular distribution at the levels 0, 7, 20 and 40 meters of water equivalent (m w.e.).
